

Indac SlimTanks 1000⁺

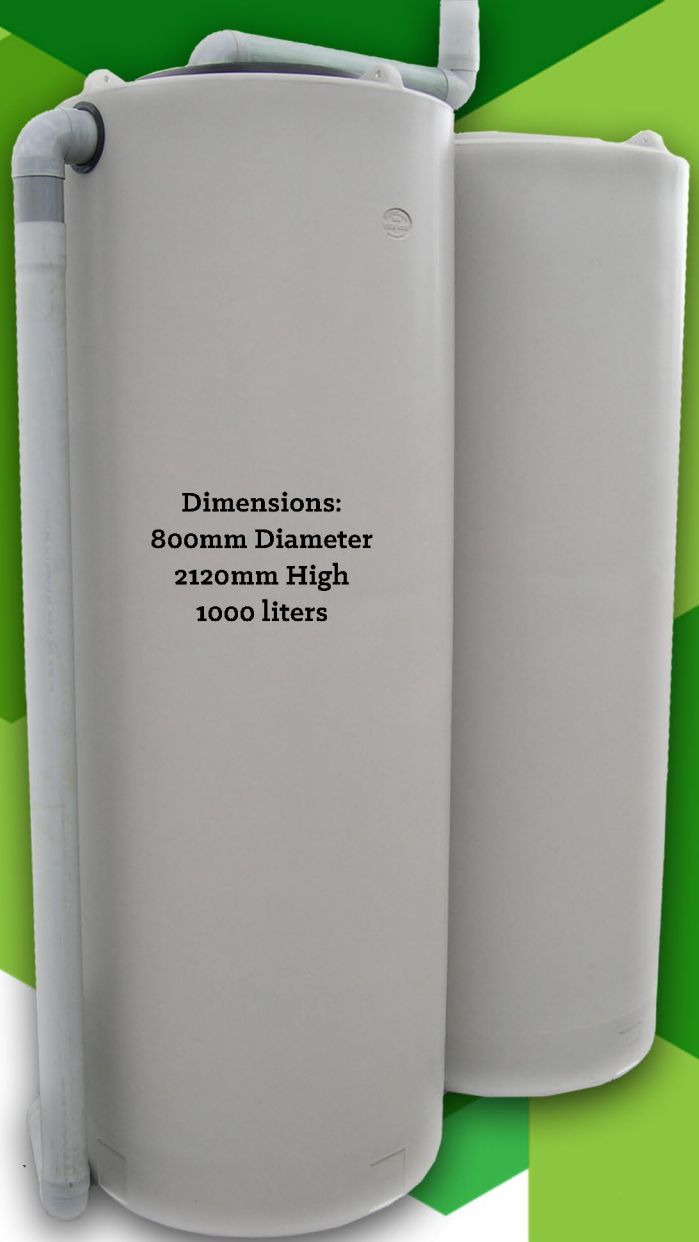

The Indac SlimTank 1000⁺ is specifically designed to fit under eaves of homes and sheds to collect rain water overflow. Our tanks have the option to be coupled in series easily allowing 1000 litres to be expanded into a large capacity storage system.

Made from high quality food grade Polyethylene these tanks are made to last.

Filter Lid Kit:

The filter lid kit is supplied with Wallace Seals to match your inlet and outlet pipe sizes, a self cleaning mosquito proof mesh screen at the inlet. Have this installed by us to improve your SlimTank water storage.

Dimensions:
800mm Diameter
2120mm High
1000 liters

SlimTank comes with many product options:

When you order your SlimTank, choose either the standard tank or add on our option packages to suit your water storage needs.

SlimTank Standard:

A 1000 litre polyethylene tank fitted with 5 strategically placed BSP threaded fittings and a mesh breather

Filter kit lid: An optional lid with a mosquito proof mesh screen at the inlet, comes installed to match your pipes.

Coupling kit: Extend your water storage capacity with a coupling kit from 1000-5000 litres or more join your SlimTanks together with the coupling kit.

We can supply your SlimTank to meet your water storage needs with the optional extras pre fitted.
